Community Garden Guide

Fictional practice pack - not real horticultural advice. Prepared for the source-checking exercise. Source date: 2026-09-12.

Scope: a community workshop planning example. Use this guide with Workshop Notes.docx and Planting Schedule.pdf.

This collection intentionally does not answer every gardening question. Do not add facts from memory to source-based outputs.

Shade bed - page 2

For the shaded demonstration bed, this fictional workshop plan recommends lettuce and spinach.

This list describes the workshop demonstration only. It does not establish what will grow in every climate or garden.

Check the Watering section of Workshop Notes.docx before watering. The supplied collection does not state a full-season watering schedule.
